

ELECTRONIC DATA SURVEY

In any court case, certain electronic information may be subject to discovery. Please indicate below whether you use any of the following services. (Using indicates that there is data about you placed or transferred there – not just that you look at it occasionally.) These resources may contain data on you which could be relevant to your case. Please list/discuss all of those below which apply, as it is very important that such issues be discussed between you and us early in this case. Please be as thorough as possible, and write in the blank spaces or add additional pages if you need more room.

It is critical that you do not delete information on the services below which already exists, as there could be potential criminal and civil liability for doing so. Please do not post information about your case or damages you have suffered to these in the future, though, unless we discuss it first.
